

THE PERSONAL PROFESSIONAL SKINCARE

JA

Juliette Armand

Skin Boosters

Slow, fight, fill time

JA

The reason I sign on these cosmetics is not a desire for fame. Behind this signature there is a message. A personal dialogue with every woman. When I am at the lab developing a formula, I see a woman before me, as if I am about to create her personal line of skincare.

25 years later, this personal message still guides every step of our course, but it now carries a great promise about **TIME**: our commitment that **YOUTH IS EXTENDED**.

Time trilogy: Slow, fight, fill time.

From the first wrinkle to maturity, you have the right to feel well in your skin.

Ioulia Armagou
Chemist
President of Juliette Armand

JA

Our path in time

Our Personal Start

Juliette Armand was established in 1992, when chemists Ioulia Armagou and Mihalis Papaefstratiou decided to become involved in the beauty industry, to explore new formulas and to present their personal values to laboratories. That is how Juliette Armand, The Personal Professional Skincare came into being, to create innovative cosmetics, based on scientific research.

Our Professional Way

Our activity focused on trying to obtain maximum efficiency formulations, to meet the high standards of professional skincare.

Our Professional Reputation Internationally

The Juliette Armand brand name and the Elements, Skin Boosters, Sunfilm and Ameson series have gained a strong position at beauty centres and are already present in more than 30 countries around the world.

Our Professional Investment

Thanks to our success, our company now owns a vertical production unit in Athens, located at a state-of-the-art facility. We have invested in advanced technological equipment and highly trained personnel, and have obtained international certifications based on stringent standards.

Our Personal Determination

Since 1992, science has changed dramatically and the beauty industry today has to meet particularly demanding requirements. We continue and persevere as passionately as before in trying to find the next formula, the next formulation, the next innovation.

1. Formulas

Continuous search for innovation.

2. Scientific conscience in the selection of ingredients

- Nature alone is not enough and is not always safe.
- Which natural ingredients, of what origin and in what synergies?
- How much nature and what technology?
- When should technology prevail and when should nature remain the exclusive factor?

These scientific questions require safe and effective solutions. We provide answers that constitute the secrets of our formulas. We do not serve "ecological" needs or "fake" dilemmas. What is natural is not necessarily safe. For us, the safety, quality and effectiveness of the products are determined by quality control.

3. Production

All Juliette Armand products are manufactured in our laboratories in accordance to the European Union's Good Manufacturing Practices (GMP) for cosmetics.

4. Packaging

Juliette Armand packages are designed to provide:

- Water-tightness
- Safety, with security seals
- Environmentally friendly inert materials
- Materials without extra volume and weight (excessive paper) that do not have increased disposal requirements and do not increase the product cost
- Materials of high aesthetic standards, functional, practical, reliable and durable

5. Effectiveness

Product effectiveness is documented without exaggerations. It is based on laboratory, clinical and dermatological tests of raw materials and end products.

6. Quality Control

We implement a strict quality control process in accordance with European Union regulations (Physicochemical and microbiological control of raw materials and end products, preservatives control, SPF certification, Challenge test, etc.).

7. Application competence

Experienced and well-trained scientific personnel (chemists, biologists, doctors and cosmeticians) are always available to provide all required information.

8. Environmental responsibility

Juliette Armand is committed to operating its business with awareness and respect to nature, people and the future. Raw materials, methods and all stages of production reflect this commitment towards the environment, at all times and in all procedures. Unconditionally.

9. Respect to customers

Our customer relationships conform to ethical rules and are governed by honest promises, reliability, clear results and consistency.

10. Social Responsibility

Beauty is not vanity. Cosmetics are not a luxury. They are products that satisfy the need for care and self-respect. Our advanced formulas are personally addressed to all people and are intended to make them feel well and comfortable in their skin. This is signified by our affordable prices.

Milestones

1992

Chemists Ioulia Armagou and Michalis Papaefstratiou establish Juliette Armand and focus their work on the research of highly effective formulas.

1993

The Notabilia cream is created and runs a very successful course. Its advanced formula (Extra Moisturizing Cream) can effectively compete with later-developed creams.

1996

A pioneer in the use of hyaluronic acid, Juliette Armand creates a wide range of serums in defense of their high effectiveness. In serum form, active ingredients are present in maximum content; 21st century cosmetology has just begun.

2001

The company is established in Athens, at state-of-the-art, privately-owned, integrated premises, constantly investing in sophisticated equipment, new procedures, research, new products and well-trained scientific personnel. Production process complies with the European Union's Good Manufacturing Practices (GMP) for cosmetics.

2003

In a period when everything is impersonal and industrialized, the founders of Juliette Armand decided to establish a personalized company. Based on their personal and professional values, they have created their own concept – The personal professional concept. And it guides every step of their course.

2004

The innovative EFFECTOX™ technology by Juliette Armand stops cellular contraction, by minimizing expression lines (muscle ageing). This discovery by Juliette Armand laboratories marked the success of the SKIN BOOSTERS anti-surgery system, cosmetology's alternative to botox, eyelid surgery, chemical peeling, mesotherapy and liposuction. With Skin Boosters, your appointment with plastic surgery is postponed!

2005

Elements: a complete professional line of high-end products, the elements of evolution for face and body beauty and health, a new, complete method of combined action and total treatment of all skin conditions. A big range of products available to cover the needs of the most demanding skin types.

2006

A-2 BLOCKERS is a chrysanthemum herbal extract that has brought about a revolution to body care products. It specifically blocks α2 receptors, ensuring a non-stop lipolysis process.

2008

The new Sunfilm sunscreen line by Juliette Armand meets the very real needs for increased sun protection, in accordance to the 2006/647/EC decision by the European Union. The line contains ANTITOX™, a powerful cocktail of new-generation antioxidants which prevents DNA damage from sun rays, repairs DNA, prevents irritations and erythema, protects from pollution and prevents ageing.

2010

The company implements the ISO 9001 quality control system for research and development, manufacturing, packaging and marketing of cosmetics, as certified by TÜV Austria certificate.

2011

The two founders remain shareholders and the company is 100% Greek. Since 2011 Stratis Papaefstratiou-Armagos (B.Sc. Chemical Engineer) and Bill Papaefstratiou-Armagos (B.Sc. Finance & Mathematics, M.Sc. Computing Science) have also joined Juliette Armand shareholder group, signifying the contribution of the second generation to the company.

2015

After 23 years of research, development and production of professional-quality cosmetics, Juliette Armand announces the AMESON Skin Medical Series, bringing all the benefits of science to medical aesthetic products. The name of the AMESON range, inspired by the Greek word AMESOS ('immediately'), underlines the commitment to medical aesthetic skin care with IMMEDIATE results.

2017

Juliette Armand celebrates 25 years of success. A special moment in the brand's history and at the same time a new beginning. A moment to let go of things in the past and embrace new ones for the future.

JA

Skin Boosters

Free of Parabens, Propylene Glycol, Mineral Oil, Allergen, SLES, SLS

S

Skin Boosters line is a targeted skincare product line, alternative to plastic surgery.

Skin Boosters line brings you the revolution in cosmetology science and assures our commitment to providing you with high-end, top-quality products, capable of maximizing efficacy with a safe and natural way.

The characteristic advantage of the line is that its products are in fact "skin boosters": products with dynamic, complex and technologically advanced formulas, which boost and enhance the natural processes and functions of the skin.

Skin Boosters line is based on innovative ingredients and technology and offers the aesthetics industry formulas fully conforming to global scientific trends in skincare and most recent scientific achievements.

In the context of "state-of-the-art" cosmetics creation, all products of Skin Boosters line are characterized by maximum safety to human health.

The advanced Skin Boosters products combine the proven maximum efficacy formulas with new technologies and ingredients:

- **Cosmetic Drones**, the most advanced delivery system for active ingredients into the skin.
- **Cross-Linked Hyaluronic Acid** for gradual release and higher hydrating capabilities.

Your appointment with plastic surgery is postponed.

Skin Boosters is the answer of cosmetology to the conventional plastic aesthetician treatments. This innovative system is comprised of 5 targeted skincare treatments addressing 5 beauty issues related to face and body: exfoliation, acne, anti-aging, eyes and topical fat. For more information, consult a professional beautician or dermatologist.

JA

Apocalypse Therapy

Apocalypse Rejuvenating Gel

Rejuvenating and repairing gel suitable to fade scars and marks and to smooth wrinkles.

It moisturizes and soothes the skin, improving its appearance and providing an even complexion. It is recommended for everyday use for hydration and regeneration, after chemical exfoliation and for acne-prone skin.

Key Ingredients: Kelifluo, Drieline, Pentavitin, Dermonectin, D-Panthenol
Use: Apply to clean skin and massage gently 1 to 2 times daily.

30ml

JA

Apocalypse Therapy

Apocalypse Rejuvenating Cream

Rejuvenating cream suitable for complexions with scars, marks and wrinkles.

It improves the appearance and quality of complexions with wrinkles and scars and it evens out the skin leaving it visibly smoother. It has a special and easily absorbed texture.

Key Ingredients: Malus Domestica, Kelifluo, Drieline, Pentavitin, Dermonectin, D-Panthenol, A-Bisabolol, Shea Butter
Use: Apply a small amount and massage gently 1 to 2 times daily. Daily use is recommended for dry complexions.

50ml

JA

Thavma Therapy

Thavma Hydra Lifting Serum

Moisturizing and firming face serum suitable for all skin types.

It deeply moisturizes and reduces the appearance of fine lines and wrinkles, leaving the skin extra firm with a healthy glow.
